

Approved PEME Clinics

July 2025

British Marine provides a Pre-Employment Medical Examination (PEME) program with approved clinics in Bulgaria and the Philippines. The benefits of the scheme include identifying pre-existing illness which may necessitate sick wage and medical costs; preventing delays or restrictions due to non-MLC2006 compliant PEMEs; preventing those at risk of a health crisis from working at sea or in remote environments; helping to avoid expensive evacuations, repatriations and long-term care; and ensuring that employees have the physical capacity to perform their role.

It is recommended that when employing seafarers originating from Bulgaria, the Philippines, Russia, and Ukraine, that a PEME is undertaken by one of the below approved clinics:

Bulgaria

Black Sea Medical Centre

28, Stefan Karadzha St. T: +359 52 612 854
9000 Varna, Bulgaria T: +359 52 612 834
